Agro Advisory

Crop	Stage	Advisory
General		Farmers are advised to provide adequate drainage facilities to all crops due to moderate to heavy rainfall forecast.
		Deepen the drainage channel to ensure better drainage.
		Link the drainage channel with farm ponds towards efficient water drainage besides the rain water storage.
		Avoid application of fertilizers and insecticides to the crops.
		Keep the farm implements, machineries and batteries in uplands / store rooms.
All crops	Irrigation	Farmers are advised to provide light irrigation or postpone irrigation to all crops due to moderate to heavy rainfall forecast.
Banana		Provide support with wooden poles to avoid lodging of tree due to rain and wind.
Fruit trees		Pruning/ cutting of excess branches maybe done to avoid lodging of trees.
Sugarcane		To avoid lodging due to heavy rain, detrashing and propping of sugarcane is recommended.
Cattle	Cow and Goat	Provide proper shedding facilities to the livestock in elevated places.

SMS advisory

Farmers are advised to provide adequate drainage facilities to all crops due to moderate to heavy rainfall forecast.
