### Agro Advisory

Crop	Stage	Advisory
------	-------	----------

General		Farmers are advised to provide adequate drainage facilities to all crops due to light to moderate rainfall forecast in the Cauvery delta zone.
		Deepen the drainage channel and link with farm ponds towards rain water harvesting.
Rice	Main field	Considering the light to moderate rainfall farmers are advised to apply fertilizers and herbicides if required.
Banana		Due to prevailing weather condition five months old banana may be provided with support against lodging and avoid irrigation.
Cattle	Cow and Goat	Avoid water stagnation in and around the cattle shed. Protect the feed material from direct rain. Animals should not be allowed to drink stagnant rainwater to avoid external parasites infestation.
		Since the onset of rainy season may attract mosquitoes breeding, farmers are advised to give Notchi leaves fumigation in dairy farm.

**SMS advisory**

Farmers are advised to provide adequate drainage facilities to all crops due to light rainfall forecast in the Cauvery delta zone.
