

SECTION - 11: RURAL WOMEN

This section mainly deals with aspects of literacy and educational status, occupational distribution and employment conditions of rural women. The coverage of women under NREGA & SGSY and other anti-poverty programmes is also given.

- 11.1: Data on literacy of females in rural and urban areas during the last five decades are presented.
- 11.2: Data on female education levels for different NSSO rounds is shown in this table.
- 11.3: Female literacy rates during 2001 and 2009-10 are given.
- 11.4: The drop-out rates at primary, upper-primary and secondary school education stages for various years during 1960-61 to 2007-08 are given in this table.
- 11.5: Data on girls' education on different type of schools 2010 in rural areas is presented.
- 11.6: The enrolment ratios at primary, upper-primary and secondary school education stages for some selected years during 1950-51 to 2007-08 are given.
- 11.7: The number of women teachers at the three stages of education for some years during 1950-51 to 2005-06 are presented.
- 11.8: Based on the 2001 population census data, the distribution of women workers in rural areas across major occupational categories is given.
- 11.9 : This table contains data on different characteristics of women workers for the year 2004-05 and 2009-10 according to NSSO survey .
- 11.10: This table contains information on the Work Participation Rates of Rural Women for the years 1981, 1991 and 2001- All India.
- 11.11: The female work participation rates according to different Rounds of NSSO are given.
- 11.12: Data on status of employment of rural female workers in social class-wise 2004-05 and 2009-10 is given.
- 11.13 : Wage earnings of female casual labour are presented in this table.
- 11.14: Incidence of early marriage of women and early motherhood of women in India 2007-08 is presented.
- 11.15 & 11.16 : Data on marital status of female population age 10 years + and 15 years + are given in these tables.
- 11.17: Data on mothers receiving ante-natal and post-natal care for rural and urban are given.
- 11.18: Rural women (15-49 years) with Chronic Energy Deficiency (CED) for 2005-06 is presented.
- 11.19: Participation levels of Women in National Rural Employment Guarantee Scheme (NREGS) for the years 2006-07 to 2011-12 are presented.
- 11.20: The number of women Swarozgaris assisted under SGSY during different years is reported in this table.
- 11.21: This table provides the data on the tier-wise membership of women in Panchayati Raj Institutions as on March, 2008.
- 11.22 : This table contains the data on the participation of Women in Small Scale Industry (SSI) sector, State-wise.

Highlights

- The rural-urban differences in female literacy levels continue to exist but these are reducing more so during the last two decades. During the last 50 years the literacy levels have improved in rural areas at the rate of one per cent per annum.
- Gross Enrolment Ratio and Drop-out rates of girl students are some of the important concerns of development in India. Overtime, the drop-out phenomenon has been reducing while enrolments have been exhibiting a rising trend.
- Considerable proportion (46 per cent) of women workers are marginal workers. Almost 90 per cent of women workers are dependent upon agriculture and 98 per cent of rural women workers are participating in unorganised sector. Nearly 85 per cent of rural female workers are either illiterate or educated up to primary level.
- Work participation rates of females in rural areas are either declining or stagnant. Casualisation among female workers is high and is on rise.
- The major flagship programme of Ministry of Rural Development (MoRD) for livelihood security is MGNREGS and female worker participation is remarkably high in Kerala, Rajasthan and Tamil Nadu in MGNREGS.

11. Rural Women

Table 11.1: Female Literacy in India – 1961 to 2001

Year	Rural	Urban	Overall (%)
1961*	10.10	40.50	15.35
1971*	15.50	48.80	21.97
1981**	21.70	56.30	29.76
1991**	30.62	64.05	39.29
2001 **	46.58	72.99	54.16
2011 **	58.75	79.92	65.46
