Sir,

I request that the following message may kindly be published in your esteemed daily:

TNAU is ranked third position among the State Agricultural Universities in the Country

Tamil Nadu Agricultural University, Coimbatore secured first position among Agricultural Universities located in Southern States and third position among the State Agricultural Universities in India by Education World India magazine. Every year, Education World India magazine is conducting educational institutions survey and rank the educational institutes in India based on the faculty competence, faculty welfare & development, research and innovation, curriculum and pedagogy (digital readiness), industry interface, placements, infrastructure, internationalism, leadership/governance and range and diversity of study programmes.

TNAU has secured first place among the Agricultural Universities in South India, 3rd rank among 63 State agricultural universities at National level and 53rd rank among the all 150 Government Universities during 2021-22, bouncing back from 72nd ranking of last year. This is due to result of major efforts taken by Prof. Dr.N. Kumar, Vice-Chancellor and staff members. Since his assumption as Vice Chancellor, teachers are motivated in imparting quality education, transforming the outlook of students on a holistic perspective, scientists are geared up to attain more external agency funded schemes, quantitative increase of quality publications etc, university has elevated its standards making a prominent place both in the National and International arena. An intensive motivational drive was given to the young scientists and the entire research fraternity spread over in various locations of the institutions in Tamil Nadu who worked tirelessly to derive high score in certain areas like research and innovation, competence of faculty and leadership quality and increased the score to 1009 during 2021 from 801 during 2020 out of total score of 1300.

In the days to come, Vice Chancellor has reassured that it will travel more diligently, to re-establish this acclaim, and will be working towards the focused goal to be ranked in the top ten institutions.
