To
The Editor,
Sir,

Date: 12.07.2022

I request that the following message may kindly be published in your esteemed daily:

Inauguration of Maize sowing for students plot cultivation in TNAU

Tamil Nadu Agricultural University, Coimbatore is offering B.Sc. Agriculture degree programme of four years duration. The principles of crop production are being taught in the first two years and the applied aspects are covered in the rest of 2 years of study. Practical crop production is one among the courses offered in the Department of Agronomy during III year. In the VI semester, the students will learn about the package of maize cultivation. In the current even semester (VI semester) the students are being exposed to maize cultivation. The sowing of Maize hybrid (TNAU Maize Hybrid CoHM6) of maize was done by the students in their allotted 4 cents of land in Eastern block farm of Tamil Nadu Agricultural University on 12.07.2022. Professor Dr.R.Kalpana, welcomed the dignitaries.

The sowing was inaugurated by the Dr. N. Venkatesa Palanichamy, Dean (Agriculture), Dr. M. K. Kalarani, Director (Crop Management), Dr.E.Somasundaram, Director, (Agri Business Development) and Dr.N.Maragatham, Dean (Students Welfare). Heads of the Departments and Scientists also took part in this august function. The sowing was done by III year B.Sc. (Agriculture) students (135 Nos.).

Dr.S.Panneerselvam, Professor and Head, Department of Agronomy, Course teachers Dr. R.Kalpana, Dr. S K Natarajan, Dr. M.Senthivelu and Dr. S.P.Sangeetha were involved in organizing the inaugural function.
