TNAU Conducts Training on PVSyst Software Design

Agricultural Engineering College and Research Institute, Tamil Nadu Agricultural University, Coimbatore organized a skill development training, “PVSyst Software Design” from 07.12.2024 to 08.12.2024 for the Students and Industry persons. Dr. A. Raviraj, Dean (Engg.), AEC&RI, TNAU, Coimbatore emphasized the importance of developing skill on designing solar systems through PVSyst software. This software is essential to learn energy yield and energy loss assessment in the optimized design of solar on-grid, off-grid and pumping system and one of the promising skills for the placements in the solar PV industries.

Industry expert Er. Sowmya Subramaniam, Project Manager, UL Solutions, Bangalore delivered the lectures and demonstrations of PVSyst design. The participants had a hands-on session with good interaction on power systems, simulation, step-by-step project design and report generation in PVSyst software. Dr.R.Mahendran, Professor, Dept. of Renewable Energy Engineering, AEC&RI handled the hands-on design on solar pumping system. The participants were provided with resource materials and assignments pertaining to the training. Further, participants were awarded with certificates on completion of assignments.
