To
The Editor,
Sir,

Date: 16.12.2024

I request that the following message may kindly be published in your esteemed daily:

TNAU commemorates National Energy Conservation Day

TNAU's Agricultural Engineering College and Research Institute (AEC&RI) hosted an awareness program to commemorate National Energy Conservation Day (14 December 2024). Awareness and sensitization were given to 3000 plus students and faculty of Tamil Nadu Agricultural University on the theme "Powering Sustainability: Every Watt Counts" proposed by the Bureau of Energy Efficiency for the year 2024.

Dr. A. Raviraj, Dean, AEC&RI chaired the inaugural session and emphasised on the role of digital detox in energy conservation and motivated the students to involve in mini projects related to energy auditing and also device patentable mini energy efficient gadgets. The session briefed the volunteers about the energy conservation program, Quizzes, essay-writing contests and idea thons along with screening a short-animated film about energy conservation.

Dr. R. Mahendiran, Professor of Bioenergy spoke about the huge positive impacts individual actions like switching to cleaner and more efficient energy sources can have.

Dr. Rajkishore S.K. Ecoclub coordinator along with multiple groups of students eagerly involved in spreading the message of energy conservation in the different undergraduate classes and labs. This mega event was organized by the students of B.Tech. Energy and Environmental Engineering.
