Sir,

I request that the following matter may kindly be published in your esteemed daily:

IDEA IS ENOUGH TO BECOME AN ENTREPRENEUR

Students of Agricultural Engineering College and Research Institute of Tamil Nadu Agricultural University are organized National Level Symposium on Ecofest for 9th consecutive year to promote technological innovation compatible with ecological system.

Mr. Ashok Kumar, CEO of the KCP Solar system, Salem in his special address said that creativity roots of all the innovation, and appreciate student who put efforts to organize this symposium in grand manner by themselves. He requested the students to come forward to apply the theory they learnt in the college which may useful for common people in society. He shared his experience of installing solar street light in remote fisherman village near Kadaladi, Ramanathapuram district around 1991, which all the villagers heartfully thanked him motivates to use science and technology for need of common people.

Dr. Ram Babu, CEO of RGM GC Advisory Services private limited, Mumbai is reiterated the importance of cultivating entrepreneurial habit among the students. He said it is opt time to initiate any business. Since idea is enough for you to make yourself find place in business map of India. He cited the examples of Make my trip. Com and snap deal and ask the students to learn from past achievers and also ready to accept mistakes. Currentlu in India 98 percent of the college passed out students aiming for the Job, merely 2 percent of the students would like to become an entrepreneur. If this 2 percent become a 25 percent, India may not have problem of unemployment.

Inaugurating the symposium, Dr C.R. Ananatha Kumar, Acting Vice Chancellor of Tamil Nadu Agricultural University said that university provides all the facility to the students to groom the leadership skills. This symposium is evidence for capability of our students. He requested the students to use the available resources to equip themselves in order to capitalize opportunity in the energy sector. World is in the need of kind of technology in energy which is sustainable in nature and compatible with ecosystem. So keep on thirst of learning and become a socially responsible entrepreneur.

As a part of the program, Eco Fest Souvenir has been released by the Dr C. R Ananatha Kumar, acting Vice Chancellor, TNAU and Received by Dr Divakar Durai Raj, Dean of the Agricultural Engineering College.

Earlier Ms. Janani Organising Secretary, welcome the Gathering and Student representative Ms. Madhu Priya thank all the participants.
